1. Which one of the following causes the overhanging margin sign:
 - a. OA
 - b. RA
 - c. Gout
 - d. CPPD

2. Which one of the following routinely causes cartilage calcification in extremities:
 - a. OA
 - b. RA
 - c. Gout
 - d. CPPD

3. Which one of the following is rarely affected by OA:
 - a. MCP
 - b. PIP
 - c. DIP
 - d. All are affected equally

4. Which one of the following is rarely affected by RA:
 - a. MCP
 - b. PIP
 - c. DIP
 - d. All are affected equally

5. Which one of the following can result in OPLL:
 - a. DJD
 - b. DISH
 - c. AS
 - d. RA

6. Thick flowing anterior ossification with relative preservation of the disc is most likely due to:
 - a. DJD
 - b. DISH
 - c. AS
 - d. RA

7. Which one of the following best describes a disc herniation where the base of the herniation is wider than the amount of disc extending into the canal:
 - a. Bulge
 - b. Protrusion
 - c. Extrusion
 - d. Sequestration

Arthritis Online Test

8. Which one of the following best describes a disc herniation where the base of the herniation is narrower than the amount of disc extending into the canal:
 - a. Bulge
 - b. Protrusion
 - c. Extrusion
 - d. Sequestration

9. Degenerative spondylolisthesis can result in which one of the following:
 - a. Central stenosis
 - b. Lateral recess stenosis
 - c. A and B
 - d. It does not result in stenosis

10. Which one of the following can result in the whittles odontoid:
 - a. DJD
 - b. DISH
 - c. RA
 - d. Gout

11. Atherosclerosis can accelerate degenerative disc disease:
 - a. True
 - b. False

12. OA at the Ac joint is a common cause of impingement syndrome:
 - a. True
 - b. False

13. Vacuum phenomenon is associated with active disc degeneration:
 - a. True
 - b. False

14. Vacuum phenomenon is seen in DISH:
 - a. True
 - b. False

15. Vacuum phenomenon is made of nitrogen gas:
 - a. True
 - b. False

16. Triangular fibro cartilage calcification is association is a hallmark of RA:
 - a. True
 - b. False

17. Stair stepping in the cervical spine is an X-ray finding in RA:
 - a. True
 - b. False

18. Synovial cysts can mimic disc herniation:
 - a. True
 - b. False

19. Facet OA can cause lateral recess stenosis:
 - a. True
 - b. False

20. The pseudo fracture of the uncovertebral joint is most often cause by RA:
 - a. True
 - b. False

21. Thin anterior ossification over multiple segments is associated with DISH:
 - a. True
 - b. False

22. OA in the SI joint most often affects the most inferior portion of the joint:
 - a. True
 - b. False

23. Early DISH and DJD can be difficult to tell apart:
 - a. True
 - b. False

24. Lack of movement in a joint can result in cartilage degeneration:
 - a. True
 - b. False

25. Excessive movement in a joint can result in cartilage degeneration:
 - a. True
 - b. False

26. Regarding DJD, changes in the disc can be associated with discs that are pain producing:
 - a. True
 - b. False

27. Calcification of the nucleus pulposis is a common finding in DJD:
 - a. True
 - b. False

28. OA in the wrist is most commonly seen in the 1st carpal metacarpal joint:
 - a. True
 - b. False

29. The spinal canal is largest when the spine is in extension:
 - a. True
 - b. False

30. Retrolisthesis can cause spinal stenosis:
 - a. True
 - b. False
