Article 1. General Provisions

§301. Tenses, Gender and Number.

For the purpose of the rules and regulations contained in this chapter, the present tense includes the past and future tenses, and the future, the present; the masculine gender includes the feminine, and the feminine, the masculine; and the singular includes the plural, and the plural, the singular.

§302. Practice of Chiropractic.

(a) Scope of Practice.

(1) A duly licensed chiropractor may manipulate and adjust the spinal column and other joints of the human body and in the process thereof a chiropractor may manipulate the muscle and connective tissue related thereto.

(2) As part of a course of chiropractic treatment, a duly licensed chiropractor may use all necessary mechanical, hygienic, and sanitary measures incident to the care of the body, including, but not limited to, air, cold, diet, exercise, heat, light, massage, physical culture, rest, ultrasound, water, and physical therapy techniques in the course of chiropractic manipulations and/or adjustments.

(3) Other than as explicitly set forth in section 10(b) of the Act, a duly licensed chiropractor may treat any condition, disease, or injury in any patient, including a pregnant woman, and may diagnose, so long as such treatment or diagnosis is done in a manner consistent with chiropractic methods and techniques and so long as such methods and treatment do not constitute the practice of medicine by exceeding the legal scope of chiropractic practice as set forth in this section.

(4) A chiropractic license issued in the State of California does not authorize the holder thereof:

(A) to practice surgery or to sever or penetrate tissues of human beings, including, but not limited to severing the umbilical cord;

(B) to deliver a human child or practice obstetrics;

(C) to practice dentistry;

(D) to practice optometry;

(E) to use any drug or medicine included in materia medica;

(F) to use a lithotripter;

(G) to use ultrasound on a fetus for either diagnostic or treatment purposes; or

(H) to perform a mammography.

(5) A duly licensed chiropractor may employ the use of vitamins, food supplements, foods for special dietary use, or proprietary medicines, if the above substances are also included in section 4057 of the Business and Professions Code, so long as such substances are not included in materia medica as defined in section 13 of the Business and Professions Code.

The use of such substances by a licensed chiropractor in the treatment of illness or injury must be within the scope of the practice of chiropractic as defined in section 7 of the Act.

(6) Except as specifically provided in section 302(a)(4), a duly licensed chiropractor may make use of X-ray and thermography equipment for the purposes of diagnosis but not for the purposes of treatment. A duly licensed chiropractor may make use of diagnostic ultrasound equipment for the purposes of neuromuscular skeletal diagnosis.

(7) A duly licensed chiropractor may only practice or attempt to practice or hold himself or herself out as practicing a system of chiropractic. A duly licensed chiropractor may also advertise the use of the modalities authorized by this section as a part of a course of chiropractic treatment, but is not required to use all of the diagnostic and treatment modalities set forth in this section. A chiropractor may not hold himself or herself out as being licensed as anything other than a chiropractor or as holding any other healing arts license or as practicing physical therapy or use the term “physical therapy” in advertising unless he or she holds another such license.

(b) Definitions.

(1) Board. The term “board” means the State Board of Chiropractic Examiners.

(2) Act. The term “act” means the Chiropractic Initiative Act of California as amended.

NOTE: The Chiropractic Initiative Act of California is listed in West's Annotated California Codes following section 1000 of the Business and Professions Code, and in Deering's California Codes Annotated as an appendix to the Business and Professions Code.

(3) Duly licensed chiropractor. The term “duly licensed chiropractor” means any chiropractor in the State of California holding an unrevoked certificate to practice chiropractic, as that term is defined in section 7 of the Act, that has been issued by the board.

§ 302.5. Use of Laser

(a) A duly licensed chiropractor and any person under their direct or indirect supervision, as defined in section 312, shall:

(1) Not use any laser in the practice of chiropractic which has not been properly approved or cleared by the United States Food and Drug Administration (FDA).

(2) Not market or advertise the use of a laser or use a laser for purposes other than treatment consistent with section 302 and the product’s FDA approval or clearance.

(3) Follow the manufacturer’s specified guidelines for the safe use of laser.

(4) Comply with all state and federal laws governing the use of lasers in clinical settings.

(b) Nothing in this section shall be construed to authorize the use of a laser by a chiropractor outside of the chiropractic scope of practice. This includes, but is not limited to, laser ablation or surgical procedures, and laser treatment of allergies.

(c) Any violation of this section may constitute unprofessional conduct and the licensee shall be subject to discipline by the Board.

§303. Filing of Addresses.

Each person holding a license to practice chiropractic in the State of California under any and all laws administered by the board shall file his proper and current place of practice address of his principal office and, where appropriate, each and every sub-office, with the board at its office in Sacramento and shall immediately notify the board at its said office of any and all changes of place of practice address, giving both his old and his new address within 30 days of change.

§304. Discipline by Another State.

The revocation, suspension, or other discipline by another state of a license or certificate to practice chiropractic, or any other health care profession for which a license or certificate is required, shall constitute grounds for disciplinary action against a chiropractic licensee or grounds for the denial of chiropractic licensure of an applicant in this state.

§305. Procedure in Disciplinary Proceedings.

All proceedings relating to the refusal to grant, suspension or revocation of a license to practice chiropractic, or for the reissuance or reinstatement of a license which has been suspended or revoked, or for the disciplining of licensees in any manner, shall be conducted in accordance with the provisions of Section 11500 et seq. of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code.

§306. Delegation of Certain Functions.

The power and discretion of the board to receive and file accusations; issue notices of hearing, statements to respondent, statements of issues, subpoenas, and subpoenas duces tecum; receive and file notices of defense; set and calendar cases for hearing; certify and deliver or mail copies of decisions; and perform other functions necessary to expedite the business of the board in connection with the conduct of the proceedings mentioned in Section 305 hereof in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, are hereby delegated to the Executive Officer.

§306.2. Persons Not Employees Hired Under Contract with the Board.

If a person, not a regular employee of the board, is hired or is under contract to provide expertise or to perform investigations for the Board of Chiropractic Examiners in the evaluation of the conduct of a licensee or administration of a board examination, and such person is named as a defendant in a civil action directly resulting from opinions rendered, statements made, investigations conducted or testimony given, the board shall provide for representation required to defend the defendant in that civil action. The board shall not be liable for any judgment rendered against that person. The Attorney General shall be utilized in those civil actions.

§306.3. Investigators; Authority to Inspect Premises.

The board or its designee may inspect the physical premises of any chiropractic office during regular business hours.

§307. Refund of Fees.

The board is not authorized or permitted by law to return any portion of the license application fee of a qualified applicant.

§308. Display of License.

(a) Each person holding a license shall display a current active license in a conspicuous place in the licensee's principal office or primary place of practice.

(b) Any licensed Doctor of Chiropractic with more than one place of practice shall obtain from the Board a Satellite Office Certificate for each additional place of practice. Said certificate must be renewed annually.

(c) A licensed Doctor of Chiropractic must display in a conspicuous place a current active Satellite Office Certificate at the office for which it was issued.

No licensed Doctor of Chiropractic shall display any chiropractic license, certificate or registration, which is not currently active and valid.

Article 2. Practice of Chiropractic

§310. Change of Name.

Any licensee who shall change his name according to the law, shall, within 10 days of such change, reregister his name with the Executive Officer of the board by submitting to the board office a written statement of the change and evidence of legal documentation.

§310.1. Replacement License.

Any licensee shall be entitled to a replacement license if his original license is lost, stolen or mangled, or upon written request and legal documentation of name change. Each request for a replacement license must be accompanied by a nonrefundable fee of \$25.00, and signed written statement as to the circumstances of loss of said license, or the return to the board office of the mangled license.

§310.2. Use of Title by Unlicensed Persons.

No person shall engage in the practice of chiropractic, as defined in Section 302, without holding a license which is in an active status, issued by the Board. Any person who advertises or promotes, in any manner, the words "doctor" or "chiropractor", the letters, prefixes or suffixes "Dr." or "D.C.", or any other word, title or letters indicating or implying that he or she is engaged in the practice of chiropractic, or who represents or holds himself or herself out as a doctor of chiropractic without having, at the time of so doing, a valid, unrevoked, or unsurrendered license, is in violation of the Chiropractic Initiative Act.

§311. Advertisements.

Constructive educational publicity is encouraged, but the use by any licensee of advertising which contains misstatements, falsehoods, misrepresentations, distorted, sensational or fabulous statements, or which is intended or has a tendency to deceive the public or impose upon credulous or ignorant persons, constitutes grounds for the imposition of any of the following disciplinary penalties:

- (a) Suspension of said licensee's right to practice in this State for a period not exceeding one (1) year.
- (b) Placing said licensee upon probation.
- (c) Taking such other action, excepting the revocation of said licensee's license, in relation to disciplining said licensee as the board in its discretion may deem proper.

§311.1. Chiropractic Specialties.

For purposes of the Department of Industrial Relations' Qualified Medical Evaluator Eligibility regulations (Division of Workers' Compensation, Title 8, California Code of Regulations, Section 12), the board recognizes only those specialty boards that are recognized by the American Chiropractic Association or the International Chiropractors Association.

§312. Illegal Practice.

Unlicensed individuals are not permitted to diagnose, analyze, or perform a chiropractic adjustment. An "unlicensed individual" is defined as any person, including a student or graduate of a chiropractic institution, who does not hold a valid California chiropractic license. An exemption is hereby created for student doctors participating in board approved preceptorship programs.

The permitted activities of unlicensed individuals are as follows:

- (a) Unlicensed individuals may take the history of a patient. However, this activity is separate from the consultation which at all times must be conducted by the licensed doctor.
- (b) Unlicensed individuals may conduct standard neurological, orthopedic, physical and chiropractic examinations, except they may not perform such examinations which require diagnostic or analytic interpretations nor may they render a conclusion either verbally or in writing regarding the patient's physical condition. As an example, unlicensed individuals may not perform evaluations of heart or lung soundings. Such individuals shall be at all times under the immediate and direct supervision of a licensed Doctor of Chiropractic.

"Immediate and direct supervision" means the licensed Doctor of Chiropractic shall be at all times on the premises where the examinations are being conducted. The licensed Doctor of Chiropractic shall be responsible for the verification of the recorded findings and will be solely responsible for rendering a conclusion based on the findings.

- (c) Unlicensed individuals may administer physical therapy treatments as an adjunct to chiropractic adjustment, provided the physical therapy treatment is conducted under the adequate supervision of a licensed Doctor of Chiropractic.

Adequate supervision shall include all of the following:

(1) The doctor shall be present in the same chiropractic facility with the unlicensed individual at least fifty percent of any work week or portion thereof the said individual is on duty unless this requirement has been waived by the board. The doctor shall be readily available to the said individual at all other times for advice, assistance and instruction.

(2) The doctor shall initially examine and prepare a written treatment program for a patient prior to the providing of physical therapy treatment by the unlicensed individual.

(3) The doctor shall provide periodic reevaluation of the treatment program and of the individual's performance in relation to the patient. "Periodic reevaluation" shall mean at least once every thirty days the patient is under active care.

(4) The doctor shall perform and record an evaluation of the patient and his or her response to treatment at the termination thereof.

(d) Unlicensed individuals may mark X-ray films administered by a Doctor of Chiropractic. "Marking X-rays" is defined as drawing and measuring between reference points and making angular and linear measurements. Unlicensed individuals are not permitted to make any diagnostic conclusions or chiropractic analytical listings, and the licensed doctor is responsible for any pathological entities covered or obstructed by the markings.

(e) Unlicensed individuals may not administer X-rays unless they hold a valid X-ray technician certificate from the Department of Health Services, or participate under the direct supervision of a licensed Doctor of Chiropractic in a training program approved by that department and set forth in Section 25668.1 of the California Health and Safety Code. This prohibition, set forth in Section 30403 of Title 17 of the California Administrative Code includes the following activities:

(1) Positioning of patient;

(2) Setting up of X-ray machines;

(3) Pushing a button;

(4) Developing of films. The Department of Health Services has determined that unlicensed individuals may develop X-ray film if that is their sole radiologic responsibility.

Unlicensed individuals who exceed the permitted scope of practice set forth in this regulation shall be in violation of Section 15 of the Chiropractic Act and shall be prohibited from applying for a California chiropractic license for such time as may be determined by the board. Student doctors participating in board approved preceptorship programs are not to be considered "unlicensed individuals" when working in said program.

§312.1. Ownership of a Chiropractic Practice.

No unlicensed individual may own a chiropractic practice regardless of the form in which the practice is established (individual ownership, partnership, corporation, etc.). This does not preclude a layperson from owning the facilities in which the practice is conducted, and the

equipment provided. It does prohibit a layperson from being in a position of making and/or influencing decisions relating to diagnosis, or treatment of patients which are matters requiring chiropractic licensure.

§312.2. Ownership of Practice upon the Death or Incapacity of a Licensee.

In the event of the death of a chiropractic licensee, or the legal declaration of the mental incompetency of the licensee to practice, the unlicensed heirs or trustees of the chiropractor must dispose of the practice within six (6) months. At all times during that period the practice must be supervised by a licensed chiropractor. The board will consider a petition to extend this period if it is submitted within four (4) months after the death or the declaration of incompetence of the licensee, including identification of any extenuating circumstances that will prevent compliance.

§313. Inducing Student to Practice Chiropractic.

No licensee of chiropractic in the State of California shall offer or cause to be offered to a student or prospective student of chiropractic any promise or inducement, either written or verbal, which may induce said student or prospective student to believe he or she, during the freshman, sophomore, junior or senior years, or within the time that he or she shall be a student in, and/or before graduation from chiropractic school or college, and/or before receiving a license from the board, may be legally employed in any chiropractic private office, or chiropractic school or college, to practice chiropractic, with or without compensation, and no student shall accept or rely upon any such promise or understanding except that junior or senior students only may, for professional instruction, be assigned to regular clinic practice, during regular clinic hours, in the clinic conducted upon the premises of a regularly incorporated chiropractic school or college, and then only when said clinic is in charge of a duly licensed chiropractor as clinic instructor. This section does not apply to students and doctors who participate in preceptorship programs sponsored by chiropractic institutions holding status with the Council on Chiropractic Education or seeking such status. Violation of this rule by any student shall be deemed to be also a violation of Section 312 hereof.

§314. Law Violators.

It shall be the duty of every licensee to notify the Executive Officer or his or her designee of any violation of the act, or of these rules and regulations, in order that the board may take appropriate disciplinary action.

§315. Mental Illness.

(a) Administrative Adjudication. The proceedings under this regulation shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

(b) Psychiatric Examinations. When reasonable cause exists that a person holding a license under this Act is mentally ill to the extent that it may affect his ability to conduct with safety to the public the practice authorized by such license, the board may order the license holder to be examined by one or more physicians specializing in psychiatry designated by the board. The report of such persons shall be made available to the license holder and may be received as direct evidence in a proceeding conducted pursuant to subsection (c) of this regulation.

(c) Probation, Suspension, etc., in Event of Mental Illness; Reinstatement. If a license holder has been found to be mentally ill by one or more physicians specializing in psychiatry designated by the board, the results of which indicates that such illness does effect his ability to conduct, with safety, the practice authorized by his license, the board may take action, in accordance with subdivision (a) of this regulation, by any one of the following methods:

- (1) Placing him on probation.
- (2) Suspending his right to practice for a period not exceeding one year.
- (3) Revoking his license.
- (4) Taking such other action in relation to his license as the board in its discretion deems proper.

The board shall not restore such license to good standing until it shall receive competent evidence, from one or more physicians specializing in psychiatry, designated by the board, of the absence or control of the condition which caused its action and until it is satisfied that with due regard to the public interest the licensee's right to practice may be safely reinstated.

Before reinstating such a person, the board may require the person to pass an oral or written examination, or both, to determine his present fitness to resume his practice.

(d) Conditions of Reinstatement. In setting aside action taken under subsection (c) of this regulation, the board may impose terms and conditions to be followed by the license holder after his license has been reinstated. The authority of the board to impose terms and conditions includes, but is not limited to, the following:

- (1) Requiring the license holder to obtain additional professional training and to pass an examination upon the completion of the training. The examination may be written or oral, or both, and may be a practical or clinical examination, or both, at the option of the board.
- (2) Requiring the license holder to submit to a complete diagnostic examination by one or more physicians appointed by the board. If the board requires the certificate holder to submit to such an examination, the board shall receive and consider any other report of a complete diagnostic examination given by one or more physicians of the license holder's choice.
- (3) Setting any other requirement the board in its discretion deems proper.

§316. Responsibility for Conduct on Premises.

(a) Every licensee is responsible for the conduct of employees or other persons subject to his supervision in his place of practice, and shall insure that all such conduct in his place of practice conforms to the law and to the regulations herein.

(b) Where a chiropractic license is used in connection with any premises, structure or facility, no sexual acts or erotic behavior involving patients, patrons or customers, including, but not necessarily limited to, sexual stimulation, masturbation or prostitution, shall be permitted on said premises, structure or facility.

(c) The commission of any act of sexual abuse, sexual misconduct, or sexual relations by a licensee with a patient, client, customer or employee is unprofessional conduct and cause for disciplinary action. This conduct is substantially related to the qualifications, functions, or duties of a chiropractic license.

This section shall not apply to sexual contact between a licensed chiropractor and his or her spouse or person in an equivalent domestic relationship when that chiropractor provides professional treatment.

§317. Unprofessional Conduct.

The board shall take action against any holder of a license who is guilty of unprofessional conduct which has been brought to its attention, or whose license has been procured by fraud or misrepresentation or issued by mistake.

Unprofessional conduct includes, but is not limited to, the following:

(a) Gross negligence;

(b) Repeated negligent acts;

(c) Incompetence;

(d) The administration of treatment or the use of diagnostic procedures which are clearly excessive as determined by the customary practice and standards of the local community of licensees;

(e) Any conduct which has endangered or is likely to endanger the health, welfare, or safety of the public;

(f) The administering to oneself, of any controlled substance, or the use of any dangerous drug or of alcoholic beverages to the extent or in a manner as to be dangerous or injurious to oneself, or to any other person or to the public, or to the extent that the use impairs the ability of the person to conduct with safety to the public the practice authorized by the license;

(g) Conviction of a crime which is substantially related to the qualifications, functions or duties of a chiropractor;

(h) Conviction of any offense, whether felony or misdemeanor, involving moral turpitude, dishonesty, physical violence or corruption. The board may inquire into the circumstances surrounding the commission of the crime in order to fix the degree of discipline or to determine if such conviction was of an offense involving moral turpitude, dishonesty, physical violence or corruption.

A plea or verdict of guilty, or a plea of nolo contendere is deemed to be a conviction within the meaning of the board's disciplinary provisions, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code. The board may order a license to be suspended or revoked, or may decline to issue a license upon the entering of a conviction or judgement in a criminal matter.

(i) The conviction of more than one misdemeanor or any felony involving the use, consumption, or self-administration of any dangerous drug or alcoholic beverage, or any combination of those substances.

(j) The violation of any of the provisions of law regulating the dispensing or administration of narcotics, dangerous drugs, or controlled substances;

(k) The commission of any act involving moral turpitude, dishonesty, or corruption, whether the act is committed in the course of the individual's activities as a license holder, or otherwise;

(l) Knowingly making or signing any certificate or other document relating to the practice of chiropractic which falsely represents the existence or nonexistence of a state of facts;

(m) Violating or attempting to violate, directly or indirectly, or assisting in or abetting in the violation of, or conspiring to violate any provision or term of the Act or the regulations adopted by the board thereunder;

(n) Making or giving any false statement or information in connection with the application for issuance of a license;

(o) Impersonating an applicant or acting as a proxy for an applicant in any examination required by the board for the issuance of a license or certificate;

(p) The use of advertising relating to chiropractic which violates section 17500 of the Business and Professions Code;

(q) The participation in any act of fraud or misrepresentation;

(r) Except as may be required by law, the unauthorized disclosure of any information about a patient revealed or discovered during the course of examination or treatment;

(s) The employment or use of persons known as cappers or steerers to obtain business;

(t) The offering, delivering, receiving or accepting of any rebate, refund, commission, preference, patronage, dividend, discount or other consideration as compensation or inducement for referring patients to any person;

(u) Participation in information or referral bureaus which do not comply with section 317.1 of the regulations;

(v) Entering into an agreement to waive, abrogate, or rebate the deductible and/or co-payment amounts of any insurance policy by forgiving any or all of any patient's obligation for payment thereunder, when used as an advertising and/or marketing procedure, unless the insurer is notified in writing of the fact of such waiver, abrogation, rebate, or forgiveness in each such instance.

In all insurance billings where a waiver of a deductible or a co-payment is intended as an advertising and/or marketing procedure, the chiropractor's statement and insurance billing shall contain the following statement:

I/WE WAIVE CO-PAYMENT AND/OR DEDUCTIBLES. IT IS MY/OUR INTENTION TO DO THE FOLLOWING: (Indicate one choice below)

() BILL THE PATIENT \$_____ AFTER RECEIPT FROM YOU OF \$_____ .

() WAIVE ANY FURTHER PAYMENT FROM THE PATIENT AFTER RECEIPT FROM YOU OF \$_____ .

() IN CASES WHERE PREDETERMINATION OF INSURANCE BENEFITS IS NOT POSSIBLE, I/WE PROVIDE THE FOLLOWING WRITTEN EXPLANATION OF MY/OUR BILLING INTENTIONS: _____

(w) Not referring a patient to a physician and surgeon or other licensed health care provider who can provide the appropriate management of a patient's physical or mental condition, disease or injury within his or her scope of practice, if in the course of a diagnostic evaluation a chiropractor detects an abnormality that indicates that the patient has a physical or mental condition, disease, or injury that is not subject to appropriate management by chiropractic methods and techniques. This subsection shall not apply where the patient states that he or she is already under the care of such other physician and surgeon or other licensed health care provider who is providing the appropriate management for that physical or mental condition, disease, or injury within his or her scope of practice.

(x) The offer, advertisement, or substitution of a spinal manipulation for vaccination.

(y) [Reserved]

(z).[Reserved]

§317.1. Chiropractic Referral Services.

Chiropractic referral services shall conform to the following:

(1) A referral bureau shall be made up of at least five doctors, each of whom does not have fiduciary relationship one to the other, with one participating office representing no more than 20 percent of the bureau's available practitioners. The board will consider any extenuating circumstances which will prevent a service from complying with these requirements;

(2) An application shall be filed with the board office which has been approved by the board, and properly identifies the service, structure and members;
