

Ethics & Law
Outline & Objectives
Presented by Steven C Eggleston
Live Seminar for Back To Chiropractic CE Seminars

Course Objectives

The objective is to update California chiropractors on law affecting them and their practices. We will cover in detail State Board Rules §317, §317.5, §318 and §319 as well as the new California Government Code §51304.

Hour 1

Government Code §51304 as amended 1/1/2017 requires all massage therapists in California to have 500 hours and be individually licensed. Doctors should be aware that massage therapists they employ can no longer work “under their license.” I also cover Board of Chiropractic Rules 318 (Chiropractic Records and Accountable Billings) and 319 (Free or Discount Services.)

Hour 2

I cover §317 (Unprofessional Conduct) including sections 317(a) through 317(w) to teach doctors how they may run afoul of the law and subject their license to discipline. §317.5 will also be discussed to warn them they will receive a bill from the Board after they have been disciplined.
