

Exam Codes

Exam codes (99203, 99204 & basic exams) do not apply to ICD-10. That is a commonly misplaced question because exams are under the procedural treatment coding (CPT), but ICD-10 only apply to actual diagnoses codes (disease).

In other words, the procedural treatment codes (i.e. CPT, HCPCS, NDC, etc.) are never coded in ICD-10.

Here's a breakdown of billing exam codes with OMFS (WC Fee Schedule):
